Appendix B: Terms and Conditions

PT Logique Digital Indonesia (“Logique”) is an Indonesia-based company. This Report and all its contents are confidential and owned by Logique. Provided that Example has fully paid all applicable fees to Logique, Logique grants Example a license to use this Report on a non-exclusive, non-sublicensable, non-transferable, worldwide, royalty-free and perpetual basis to the extent necessary for internal use by the management of Example only. Logique does not grant Example the right to use any of its trademarks, trade names, or other designations.

All information in this Report is provided “as is”, without any warranties of performance, merchantability, fitness for a particular purpose, or of any other kind whether express or implied, other than those expressly stated in the Report. To the fullest extent applicable under law, Logique disclaims all liability arising from or in connection with any decision made or action taken in reliance on the Report or its contents, and for any consequential, special, or similar damages.

Logique Personnel have strictly confined their review to the scope and agreed hours outlined in the relevant Sales Order/Statement of Work on the relevant date(s). Logique Personnel may identify additional observations with further time and testing, and/or with a different assessment scope. Example acknowledges that no security assessment process, however well-planned or performed, will be free of inherent limitations and/or will be able to detect all vulnerabilities at the time it was conducted. Changes to the audited system may also result in new vulnerabilities which can only be detected by further assessments
